# Janroe Otto

## Full-Stack & Front-End Developer

Seasoned Front-End Developer, 3+ years building fast, accessible, and well-crafted web interfaces. I care about the details — spacing, transitions, and code that the next dev actually enjoys reading.

### EXPERIENCE

#### ● Full-Stack Developer

##### Health Window (Pharmacy Software)

March 2026 – present · Lynwood

- Architected and delivered a full-stack medical prescription uploading feature utilizing C#, ASP.NET MVC, and SQL Server to streamline document processing
- Engineered an internal Leave Allocation Utility application, implementing custom backend business logic and interactive frontend management views.
- Designed and integrated relational database tables and stored procedures to handle secure file metadata and user submission states
- Built end-to-end data workflows, connecting responsive front-end file-upload components directly to back-end controller endpoints and database storage

#### ● Front-End Developer

##### Health Window (Pharmacy Software)

2025 – present · Lynwood

- Developed visually appealing and responsive web pages, translating Figma and Adobe XD designer mockups into pixel-perfect, client-approved interfaces
- Added features for both mobile and desktop platforms
- Utilized version control systems such as Git to track changes throughout the development process
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Collaborated with back-end developers to improve website functionality and integrate new features

#### ● Junior Full-Stack Developer

##### WMS (ERP Software)

2023 – 2025 · Hartbeespoort

- Built and styled UI components across multiple desktop applications using XAML, DevExpress and Telerik UI, ensuring consistent, modern interfaces
- Developed customer and fleet management screens with clean layouts and intuitive navigation using WPF and SQL Server
- Led UI/UX design and styling on a multi-app emergency response system, implementing custom styles for layout consistency and responsiveness
- Migrated a voucher application from Xamarin to .NET MAUI, resolving styling issues and refining font and layout design to match client specifications

#### ● Intern / Junior Developer

##### ThinkTank Creative (WordPress Websites)

Jan 2023 – May 2023 · Irene

- Developed websites using WordPress and plugins, incorporating design elements to enhance user experience
- Managed enterprise websites, proficiently resolving PHP errors to ensure smooth functionality and optimal performance
- Gained extensive knowledge in web development and design, fostering a strong foundation for further projects

### PROJECTS

Production applications built during my time as a professional developer. Screenshots aren't shown here out of respect for company confidentiality/policy — happy to walk through any of these live on a call.

#### Script Uploader

Full-stack feature letting patients photograph and upload a doctor's prescription, then choose delivery or in-store collection for their medication.

HTML CSS JavaScript C#

ASP.NET MVC SQL Server

Production Work – Demo on Request

#### Order My Meds

Front-end ordering flow where patients select prescribed and over-the-counter medication for delivery or pre-packed collection at their preferred pharmacy.

HTML CSS JavaScript

Production Work – Demo on Request

#### Sales View

Internal dashboard visualizing company sales data and management statistics, with interactive JavaScript-driven charts for at-a-glance reporting.

JavaScript Data Visualization HTML

CSS

Internal Tool – Demo on Request

### Pharmacy Stats Tracker

Analytics dashboard surfacing top-selling products and other pharmacy performance metrics, built with extensive JavaScript charting for clear, digestible insights.

JavaScript Data Visualization HTML CSS

Internal Tool – Demo on Request

### Pharm Payment Portal

Payment portal built for a large pharmacy's e-commerce store, handling checkout flows for online medication and retail orders.

HTML CSS JavaScript

Production Work – Demo on Request

### Leave Manager

Full-stack internal tool for managing employee leave balances, allocations, and approval workflows end to end.
